Her sensitivity to the thoughts of others drives her to seek solace in the forests surrounding Aclay, a small village that has been living under a malevolent shadow for hundreds of years.

As fear and loss ravage the countryside, the two outcasts form an unlikely bond forged in loneliness and surrounded by the flickering silhouettes of destiny. When their home is destroyed, the outcasts must join a volatile group of their peers on a journey that threatens to strip them of everything they cherish, imperil everything they've ever known, even force them to question the nature of reality itself. Can they find the key to stemming

the tide of darkness without losing themselves along the way.
